MERGER MAY BE DISSOLVEDBE SUBJECT
OF SUIT AND**PRESIDENT AND BRYAN CONFER ON MEXICO****CONSOLIDATION PROBED****SUIT IS IN HANFORD; IN FORM FOR FILING**

Stockholders Say it Will Be Given to Court Tomorrow.

Attorney E. Nusbaumer this morning admitted that the minority stockholders had decided to file a dissolution suit for the dissolving of the Oakland Tractation Company merger tomorrow morning.

"We have decided to take this action," said Nusbaumer this morning, "after several conferences. We originally intended to file the suit today, but finally came to the conclusion that tomorrow morning would be a more appropriate time." Otherwise Nusbaumer refused to discuss the affair, stating that he would rather have the proposition hushed up until after the papers had been filed.

The minority stockholders are brought up by what they term the "high-handed methods" of the board, which is endeavoring to straighten out F. M. Smith's affair, declaring that they have been ignored as far as their wishes in regard to the entanglement were concerned. A stockholder who stated that he did not wish to be quoted this morning declared that the minority members were through with being made to look ridiculous and would bring the dissolution matter to a head as soon as possible. "We have been treated positively insulting," he said, "our wishes and suggestions receiving no attention whatever, and we propose to see this thing to finish."

WILSON DISCUSSES NEW CURRENCY BILL

Believes it Will Be Reported About as Framed.

WASHINGTON, July 28.—President Wilson believes the administration currency bill will be reported by the House Banking committee substantially as it was framed.

In discussing the situation with callers today he made it clear that the bill would not be materially altered and the differences in the committee would be reconciled. It is now practically certain that the administration bill will be carried to the caucus where it will be made a party measure. That is the impression gained at the White House from those who have talked over the situation with the President.

Fire Destroys Sioux City Ball Grounds

SIOUX CITY, Ia., July 28.—A spectacular fire that originated late last night in the grandstand of clubhouses at the Missouri Baseball park, the home of the Sioux City Western League team, destroyed the grandstand, the house, the Little Planning Mill Company's plant and the Warwick tank factory.

The Sioux City ball team's equipment was burned. Today's game will be called off.

CLUBS WILL SENATORS HEREAFTER PAY TAX

Liquor Permits to Be Revoked and Ordinance Amended.

Social Bodies Not to Be Granted Free Licenses, Purpose.

Revocation of all free liquor permits enjoyed by the social clubs and the placing of a small license tax on the clubs for the liquor privilege, was declared to be the policy of the city council this morning. The council will immediately take steps to amend the present ordinance governing this matter and will revoke the free privileges now enjoyed by the social clubs.

This action will involve the Athenian Club, Nile Club, Claremont Country Club, Elk Club, Moose Club and a number of other social clubs which have up to this time enjoyed the privilege of selling liquor without paying a license to the city.

BARTENDER CLUB.

The matter came up in connection with a recommendation from Chief of Police Weller J. Petersen that the free permit held by the Social Clubs of the Bartenders' Union should be revoked because the liquor privilege of the club had been sold to W. R. Hackett, bartender for the club.

FINLEY TO DIE FOR ASSAULTING GUARD

Sentenced to Hang on Oct. 24; Denounces Laws as Unjust.

SACRAMENTO, July 28.—James Finley, the Folsom convict who for seven years has fought against the carrying out of the death sentence pronounced upon him for assaulting a guard, was sentenced to hang on Friday, October 24, by Judge Post this morning.

"On this basis I asked that I might have an option with which to proceed abroad, to obtain, if possible, a renewal of offers of money which I have before secured, and which, if obtained, would have completely rehabilitated everything and everybody."

WILL NOT RAID GAMBLING CLUB

Blockade Only for the Ormonde, Says Chief White.

TRENTON, N. J., July 28.—A petition in bankruptcy was filed today against the Buffalo Bill Wild West and Far East shows. Services were made on Gordon W. Little, president of the shows. The company is a New Jersey corporation. Conciliation proceeding will be instituted in Denver. The assets and liabilities were not stated in the petition.

BLOCKADE ONLY FOR THE ORMONDE, SAYS CHIEF WHITE.

SAN FRANCISCO, July 28.—Chief of Police White practically admitted this morning that he could not raid the Ormonde club at 88 Ellis street, owned and operated by two brothers. Despite the search warrant obtained by the chief and Sergeant Redmond in charge of the gambling squad, the chief will make no raid. "Raids will not be necessary," said White. "We have put a blockade on the place and do not think there will be any more gambling."

Blockades have been the order for years and have seldom accomplished the purpose for which they were intended. Chief White and Captain Mooney differ on the subject and the head of the upper office is in favor of raiding repeatedly until the owners of alleged gambling clubs give up in despair. Mooney believes that the proper way is for officers to step down, the doors if they want to enter. White, however, has changed the plan and stated positively today that Wolf brothers would not be raided.

The appointment as detective sergeant of Frank McDonald seems also to have raised a storm.

CELEBRATION OFFERS LAND FOR ROAD

Owners of Dublin Ranches to Sell Territory for Improvement.

The Dublin "I" road project, according to its complete plans, will be accomplished without the aid of condemnation suits to secure the right to use certain private property near Dublin in overcoming the stretch known as "Death Curve." This was assured this afternoon when a petition filed by owners of the land in question offered the land for sale on a basis to be decided by the viewers. These are L. C. Conaghan, L. F. Larson and County Surveyor P. A. Haviland. The petition was signed by William Schmidt, Jacob Jansen, George S. Jones and others. The land would have been made subject to a condemnation had not this agreement inspired a peaceful settlement of the matter. No trouble had been expected.

Enthusiastic over the road improvement, the viewers will report on the matter next week.

SALINAS READY FOR BIG RODEO

Main Streets Gay in Honor of Big Celebration of Tonight.

SALINAS, July 28.—Salinas is ready for the formal opening of the third annual rodeo.

The main streets are lined with gaily decorated buildings, stringers of Chinese lanterns and multi-colored bunting.

Hundreds of cowboys are here from all parts of the state to participate in the rodeo events, which will start tomorrow at the racetrack. Many others are on their way, coming by trail from the various sections of the cattle country, and arrivals will be constant for the next several days. Prancing range horses clatter over the pavement, and it takes only the slogan of the fete, "Ride'm, cowboy," to bring together dozens of gay shirted punchers.

El Primero del Rodeo, the opening of the roundup, will be celebrated this evening when the city will be shot up in true early day western style.

At 7:30 o'clock the punchers will assemble in the outskirts of the city and at a given signal they will gallop to the center of the town, firing hundreds of blank cartridges as they ride.

Immediately afterward the heroic electrician, electric statue, which has been erected in the center of the city, will be dedicated to the "Puncher," and the keys of the city will be turned over to the Big Week committee by Mayor F. P. Fleiz.

The list of events at the track tomorrow include steer bulldoggings, fancy roping, bronco riding contests for cowboys and cowgirls, relay races for both sexes, steer and bull lassoing, bull riding, chariot racing, chuck wagon races and wild horse races. Gaited and reined saddle horses will compete for prizes.

BRANCH ROAD TO BE OPENED SOON

Oakland Antioch Extension Will Be Ready on August 5.

WALNUT CREEK, July 28.—General Manager H. A. Mitchell of the Oakland, Antioch and Eastern Railroad announced yesterday that the new branch line just completed to Pittsburg, the second largest town in Contra Costa county and the present terminus of the road, would be opened on Tuesday, August 5th.

The road leaves the main line at Sacramento Junction, near Bay Point, to reach Pittsburg, and will be extended to Antioch.

Six trains daily will be run between Oakland and Pittsburg.

Work is being rushed on the main line to Sacramento and the road will be in operation to Sacramento late in August.

Mitchell further announced that extra crews would be put on immediately to open the branch line in an effort to open the branch line in the San Ramon valley at the same time as the main line to Sacramento. Twenty carloads of tie have arrived at Saratoga Junction and the work of laying the tie will be commenced this week.

A telegram from the east received yesterday states that all the new rolling stock will be shipped in a few days and will arrive in time for the opening of the road to Sacramento.

ON HER KITCHEN STOVE

It is interesting to note that the most successful remedy for women's ill was originally prepared nearly forty years ago by Mrs. Lydia E. Pinkham of Lynn, Mass., by steeping roots and herbs in her kitchen stove and supplying to friends and neighbors without cost. Her fame spread; she became a woman of wealth and her concoction is now sold throughout the world.

SEEKS JUSTICE FOR WORKINGMEN

Rev. R. F. Carter Speaks on Church's Mission at Joint Meeting.

At the last open air joint meeting of the Y. M. C. A. and Y. W. C. A. held in Woodmoor park yesterday, Rev. Ray F. Carter, assistant pastor of the First Congregational church spoke on "The Attitude of the Church on Industrial Problems."

"The church must recognize the present day industrial problems for its own sake," said the speaker. "It must be the workingmen in its ranks, and it will not have them until it recognizes the problems the workingmen are facing. We cannot stumble along and see men treated unjustly. They want not charity, but jus-

tice, not sympathy, not charity, but justice to all classes."

A number of vocal solos were rendered by Miss Hawley, W. N. Jenkins presided at the meeting.

KILLED BY FALL FROM HAY LOFT

Aged Hostler Piunges 20 Feet Into Vacant Manger; Fractures Skull.

SAN FRANCISCO, July 28.—Tumbling from a hay loft in which he had been sleeping through the night Frank Stanford, an aged hostler, plunged a distance of 20 feet and was killed early this morning. Lying in a vacant manger in a pool of blood with his skull fractured and a number of bones broken, Stanford's body was found shortly after 8 o'clock this morning by P. H. Sam. The accident occurred in the stable at 810 Folsom street. Stanford had locked himself in his room at the place and is supposed to have decided to lie down on the hay and sleep out the night. It is presumed that he turned over while slumbering and dropped through the aperture used in lowering feed to the horses. His body struck the sides of the stall and he was fearfully injured.

Deputy Coroner Gavin took charge of the remains.

TO MUZZLE DOGS BURGLAR LOOTS LAKESIDE HOME AFTER THEY BITE

New Ordinance for Canine Safety Is Given First Reading.

The owner of a dog that bites a person will be judged guilty of a misdemeanor, given its first reading before the City Council this morning becomes a law. The ordinance provides that when a dog has bitten a person the animal shall be impounded and examined by the Health Department. If it is found not to be diseased, the dog will be released, on condition that he shall keep his dog muzzled.

The new ordinance is also different from the old, in the fact that female dogs are not allowed at large, muzzled or unmuzzled at certain times, and that dog licenses will be issued free to persons unable to pay by reason of poverty.

CONTRACTOR CHARGED WITH BATTERY BY WIFE

Charles W. Cramer, a contractor, was arraigned in the police court this morning on a charge of battery preferred by his wife. While being taken to the city prison in the Melrose police auto yesterday, Cramer leaped from the machine after running himself from the grasp of Captain Thomas Bell and escaped in the darkness, after narrowly avoiding rolling under the wheels of the automobile.

Patrolman Doolan went to the home of Cramer's father, 624 Tenth street, and there found the fugitive peacefully in bed. He was taken into custody. Then Cramer's wife at 1531 Sixteenth avenue, and neighbors declared they heard the woman's cries when she was being attacked by her husband.

BULL MOOSERS ADMIT FROSTY CELEBRATION

Birthday Party at Newport Was Well Advertised, but Proved Disappointing

(Special to THE OAKLAND TRIBUNE.)

WASHINGTON, July 28.—Members of Congress, allied with the Bull Moose party, have been discussing among themselves the recent celebration of the Progressive party's birthday at Newport, Rhode Island. The discouraging information brought to Washington by those few members who attended has gradually reached the ears of others not allied with the Roosevelt party, and is causing no little amusement. The truth admitted by the Progressives among themselves, is that the gathering was a "frost."

Much money was spent in advertising. Newspapers in the vicinity of Newport contained display advertisements of the event, the public being generally invited to come and see what was to be seen.

Thousands of circulars and private letters were sent out, the necessity of having a band being strongly urged. Special trolley cars were arranged for from Providence, New Bedford and other large towns and villages. From other points special trains were to be provided, "as it was expected 40,000 persons would take part." To accommodate the great crowds the committee was obliged to send to Chicago for a tent. As an added attraction there

were to be the bears and dead walls.

The Building Of Kahn's Great New Store

Seventeen months ago the excavators began digging the "big hole" at Broadway, Sixteenth and San Pablo. Today Kahn's New Store stands complete—an enduring monument to the skill and energy of The Oakland Working Man.

And now is fit time to place on record our high appreciation of those competent workers. No words can do more than justice to the ability and zeal that has achieved so conspicuous, so marvelous a result. To the hundreds of men who have worked on the building and to the army of other men engaged in the shops of sub-contractors—to the brains that directed and to the hands that wrought—we pay admiring tribute.

Next Saturday Our New Home Will Be Dedicated To The Service Of The Public

Everything will be ready. For months our buying organization has been gathering enormous new stocks for our new store. Every ebb and flow of the market has been used to the best advantage, with the result that on our Opening Day here will be assembled the largest, most ably bought and best assorted stocks of dependable merchandise ever seen in the west under one retail roof. This merchandise will be displayed in our many departments, marked at the lowest prices in California. Selling will start the hour we open. Five hundred assistants will make smooth the path of shopping. An ample elevator service will quickly take you from floor to floor. Comforts, luxuries and conveniences will greet you on every side. Every contrivance and invention that forethought could devise to make shopping pleasant and safe has been installed.

Approve City's Roads and Natural Beauties During 2-Hour Tour.

Many Stops Made at Points of Interest in Immediate VICINITY.

For the first time in twenty days the Indiana automobile manufacturers touring the west were allowed to stop last night in their hotel apartments instead of rooms in the honored guests at some local function. It was at their request that the continual California hospitality was broken for a few hours so that much needed

This morning promptly at 10 o'clock a two hours' tour of Oakland and vicinity was given to the Indiana automobile manufacturers and their wives in approval of our city and our roads. The seventeen visiting cars, accompanied by twenty-five local machines filled with Oakland automobile and business men, went around the lake drive and along the Mandana boulevard to Piedmont park, where a brief stop was made to view the art gallery there, which was opened to the visitors by the courtesy of the gallery officials. Other stops were made at the Claremont Country Club, Cragmont and the Thousand Oaks, where the visitors had their first view of San Francisco bay and the Pacific.

SIGHTS IMPRESS.

The university grounds were the next center of attraction, the Greek theater and the beauty of the campus impressing them nearly as much as did the smooth boulevards and roads that they had passed over during the morning's trip. Lake Merritt also came in for its share of admiration, and the guests were much surprised that Oakland had not made more of its natural beauty in eastern papers. "Your roads, boulevards and wonderful scenes should be capital type in the eastern magazines," said one of the visitors. "You have absolutely a remarkable country around here—no other country I know of has such a sound foundation of your achievement."

JOLLY LUNCHEON.

The machines reached the Hotel Oakland again at noon, and at 12:30 100 guests and hosts sat down to a jolly luncheon that the citizens' committee, composed of members of the Commercial Club, Chamber of Commerce and the local automobile firms, had prepared. Informal it was as the watchword of the hour, and the addresses given a little later were entirely extemporaneous.

Mayor Mett presided and gave the address of welcome. In a few well-chosen words he showed the motor

men that progress moved with the automobile, and that since Oakland was for progress it was therefore doubly the gasoline machine. Charles A. Bookwalter, formerly mayor of Indianapolis and a member of the party, spoke briefly, followed by Frank H. Dailey and Fred W. Hauger, both local motor men. P. A. Harland and Elwood Haynes, known as the "father of the automobile," completed the list of speakers.

At 2 o'clock the Indiana tourists left the hotel, loud in their praise of Oakland hospitality, and caught the 2:15 boat for San Francisco, where many more elaborate affairs are ready for them.

Rousing Reception Is Given "Hoosiers"

By EDMUND CRINNION.
Receiving the most enthusiastic re-

ception accorded them on the way from Indianapolis to the coast, the Indiana Automobile Manufacturers' Association entered Oakland yesterday afternoon.

As the motor caravan and escort started over the foothill boulevard through the gateway of over 1000 automobilia among the roadside on both sides, all gaily decorated with "My City—Oakland" pennants, the welcome of the city was heralded to the visitors by the screeching of sirens, the exhaust of racing motors, the shouts of welcome and the refrain of

Haynes Inventor of "Horseless Carriage"

One of the most conspicuous figures of the Indiana Pacific Coast tour is Elwood Haynes, of Kokomo, Ind.

Mr. Haynes conceived the idea of building a "horseless carriage" in the year 1891, while employed as field superintendent of two Indiana Natural Gas and Oil company.

During the following year he prepared drawings for the construction of a self-propelled vehicle for use on the highway, and in 1893-94 built his first machine at the Riverside machine works, Kokomo.

Since that time Mr. Haynes has been continuously identified with the automobile industry. The Haynes Automobile company, of which he is president, was the first company organized in the United States of America for the manufacture of the gasoline automobile.

The pioneer car was gifted by Mr. Elwood Haynes to the Smithsonian Institution, United States National Museum, Washington, D. C., in 1910, and today it stands on exhibition placarded as follows:

"Gasoline automobile built by Elwood Haynes of Kokomo, Indiana, 1893-94. Successful trial trip made at a speed of six or seven miles per hour, July 4, 1894. Gift of Elwood Haynes, 1910."

Mr. Elwood Haynes, despite his odd years, is standing the trip in good shape. He is a passenger in car No. 1 in the tour, which is a Haynes six cylinder model.

He made three to four speeches daily on the subject of permanent roadway construction on the various tours through which the tour passed. One speech particularly, that delivered at Colorado, Colo., on July 4, was considered one of the most interesting addresses ever delivered on the subject of automobiles.

In his opening remarks Mr. Haynes informed the guests how with his first trip in the Haynes automobile, he made from 100 to 120 miles a day. The second trip, in 1894, he made 150 miles a day, and the third trip he made 200 miles a day.

He said the first trip he made

COUNTY ROADS PRAISED.

The roads of Alameda county are better than the state of most in

by one of the visitors. "And we never got such an enthusiastically reception on the entire tour," said another.

Indiana cars were out in force to meet those from the Hoosier state. Fred W. Hauger, Oakland manager for the Haynes Auto Sales Company for the Haynes car owners over thirty strong to the line of welcome.

Frank H. Dailey, the Premier car distributor, also was at the head of

journeying over the boulevard to greet the Hoosiers.

Once past the line-up on the boulevard the caravan and the welcoming escort of cars over 1000 strong wended its way to Oakland, where the night stop was made at the Hotel Oakland.

The Premier cars attracted much attention throughout the tour on account of the fact that it was the Premier ocean-to-ocean tour of twelve cars in the hands of private owners that made the trip across the continent some two years ago, starting the ocean-to-ocean highway project.

San Francisco Has Interesting Program

PREMIER has been building successful Sixes seven years.

PREMIER was the first maker to offer a six-cylinder car at less than \$3000.00 when their four-cylinder product commanded a \$3000 list.

PREMIER was one of the four successful Sixes which created the six-cylinder demand.

It was ten private owners in their Premier cars who made the Ocean to Ocean trip in 1911, the first touring party to cross the country by motor.

The G. & J. Premier Prairie Schooner is a rebuilt pleasure car chassis and by far the heaviest car in the tour. Is this not a concrete example of Premier's sturdiness and reliability?

SOCIETY

ITH August so near the weddings of the coming month are events of great interest to society. One of the first of the August weddings will be that of Miss Genevieve Hatch and Lloyd Stetson, which will take place at the home of the bride's parents, Mr. and Mrs. George W. Hatch.

The wedding, on August 14, will be a rainbow wedding, with the attendants in colors of various shades of blue and green-color. Miss Margaret Meek will be the maid of honor and the bridesmaids will be Miss Mildred Manuel, Miss Emma Auerbach and Miss Helen Hathaway. John Hale, one of the fraternity brothers of the groom, will act as best man, and the ushers will also be members of the Kappa Sigma fraternity of Berkeley to which Stetson belongs. The nuptials will be followed by a reception at the Hatch home in Park View Terrace. Stetson is a graduate of the State University and an electrical engineer.

The next wedding of importance to the bay cities smart set will take place at the Palace Hotel across the bay, on August 14, when Miss Marguerite Butters will become the bride of Charles Teague of Fresno. Mrs. Victor Metcalf Jr., the bride's sister, will be her only attendant, and the ceremony, though elaborately appointed, will be witnessed by the immediate relatives only. They will live in Fresno, where Teague has extensive interests.

Mrs. Newbridge—“Yes, but this is the way mother washed. She always said to boil the clothes good and long.”

Anty Drudge—“Yes, and your mother wore hoopskirts, and a poke bonnet, and did her sewing by hand, when she was young. Take my advice and use Fels-Naptha Soap in cool or lukewarm water.”

“Boil ‘em. Boil ‘em good,” was the old way of washing. Until the invention of Fels-Naptha Soap that was the only way. Now, isn’t it foolish to keep on boiling clothes, and rubbing them hard, when a way to wash better in cool or lukewarm water with no hard rubbing has been found?

But there’s a right way and a wrong way to use Fels-Naptha Soap. Start right.

Follow the directions on the box and you’ll be right every time.

ALAMEDA DIES AT LOS GATOS

CLOSING WEEK OF SUMMER SESSION

Charles Powell, Contractor, Passes Away After Long Illness.

ALAMEDA, July 28.—Charles G. Powell, founder and president of Powell Brothers company, stone and cement contractors, died this morning at Los Gatos after a long illness. Powell spent yesterday at the Herbert Powell home on Leona Heights and later motored to Los Gatos in the company of friends. He planned to stay at Los Gatos for a time in the impaired health.

The body will arrive in this city today and the funeral will be held under the auspices of Alameda Lodge of Elks. The Elks flag was half-masted immediately upon receipt of the news of Powell's death.

Powell was exceptionally well known in this city. From the most modest beginnings he developed the firm of Powell Brothers, assisted by his brothers, Herbert and Roy Powell, until the firm became one of the leading street improvement and construction companies in the state.

When Powell's health broke a year or ago he resigned from the company. He was at Napa for a time, but came steadily and was brought home to this city and improved until he could again be a student in pleasant weather. He was a member of Alameda Country Club, a motor car. Powell owns a handsome home on South Oak street and also owned extensive business and residence property interests. He is survived by a wife, his two brothers and his parents.

Several months before the last city election Powell had announced that he would be a candidate for mayor, but withdrew his name later, though not until the time for officially withdrawing had elapsed and his name appeared on the mayoralty ballot.

MONTANA WOMAN PROVES MANY-SIDED PARADOX

SAN FRANCISCO, July 28.—Mrs. Samuel Johnston of Butte, Mont., holds the distinction of having proved the paradox that a woman may be an efficient mother, a public spirit, a business woman and a society leader all in one. Mrs. Johnston, who is visiting her son and daughter-in-law, Lieutenant and Mrs. J. H. Johnson, U.S.A., retired, has had eight children, written two cook books, been an eminent spirit in Middle Western journalism for the last twenty years, been prominent in society in Butte, and what is best of all, has made her home comfortable for a contented husband.

Under the name of May Seasted Johnston she has written for the best journals and periodicals in the country and has been in the staff of the Butte Miner for over twenty years. She has also been known as the biographer from a psychological standpoint of Mary MacLane.

CASTRO DISAPPEARS FROM CANARY ISLANDS

NEW YORK, July 28.—Ciriaco Castro, former president of Venezuela, has disappeared from the Canary Islands, where he has been abiding for some time with his wife and has called for the West Indies, according to mail addressed to his residence in Caracas here today.

DEPARTURE BY LAND.

LONDON, July 28.—A rumor was current to Madrid and Rome that

Said Bag Held Kittens, Then "Cat Was Out of Bag"

Eight supposed kittens in a sack resolved themselves into eight chickens despite the protestations of Manuel Lina, at the Fruitvale station of the Southern Pacific yesterday that the sack he carried contained kittens which he intended to drown. Patrolemen Thomy and Gargadene escaped a chicken leg protruding from a hole in the sack, and the "cat" was cut out of the sack.

Lina stated that he had bought the chickens from Mrs. V. Castro of 301 Glendale street. Mrs. Castro however, disclaimed former ownership of the sack of poultry and the officers learned that the chickens had come from the place.

He was arrested on this charge at the Melrose police station. The police believe he is the man who has been making raids on Fruitvale chicken coops. Lina was arrested for stealing a motorcycle a month ago and was placed on probation July 10.

The attractive program of the half hour of music was given by Edward G. Stricklen, composer and pianist; Lowell Moore Redfield, baritone; and Mrs. Mabel Hill Redfield, pianist.

The work of Bret Harte, Stricklen, Wallace Stein, Professor Horace Morse Stephens and other California musicians and composers comprised the half hour.

Stricklen opened the musical program with selections from "The Greek Festival," the Bohemian club gave play of 1911, and the women composed by Redfield, based on "The Three Ships" by Bret Harte and Wallace Stein, said to be the greatest song ever written in California. He was obliged to forego a number of encores owing to the length of the program.

Stricklen was given an ovation when he played "The Vision of the Madonna," from "The Awakening of Everso," the Parthenon of the college women of the university. Professor Stephens' song, "The Voice of the Winds," received general applause.

SYLVIA PANKHURST LODGED IN JAIL

Attempt to March to Home of Premier Blocked by Police.

LONDON, July 28.—Sylvia Pankhurst, the militant suffragette, who was out on license under the "cat and mouse" law, was the leader of a suffragette demonstration yesterday which surprised all London Sunday afternoon affairs of the sort. In the rising which followed, Miss Pankhurst was arrested and taken to Holloway jail.

The meeting, held in Trafalgar Square by the Men's Federation for Women's Suffrage, and the East End branch of the Woman's Social and Political Union, had been announced in advance, and this fact, and also a rumor that a charge upon Premier Asquith's residence with resolutions was planned, brought enormous crowds into the square.

Miss Pankhurst made a dramatic appearance from among the crowd and was dragged to the plinth of the Nelson column amid great cheering.

The huge crowd, then moved down Whitehall toward Downing street. A platoon of police formed a cordon across the road, aided by a blockade of wheeled conveyances. Mounted police then rode into the crowd, scattering it, and driving the people down side streets, while officers in plain clothes got possession of Miss Pankhurst after a fist fight with her bodyguard of East End youths.

Miss Pankhurst was driven to Holloway jail to serve the remainder of her sentence or to stay until she is again released through a hunger strike. In the station house she struggled desperately with the officers and then smashed a window with a ruler, which is used to measure prisoners.

Two women were arrested for throwing stones at Mr. Churchill's windows. Several policemen were badly injured by kicks and blows.

The Real Answer to the Question: "Who Owns the Oakland Ball Club?"

Answers to the Tribune's Great Mystery

American Team Again Captures the Davis Lawn Tennis Cup

Billy Fitz Says, Says he:

HEN certain San Francisco scribes get tired of trying to figure out an alibi for the Seals they delin into the

Coast League closet and shake the bones of that skeleton known as "Syndicate Baseball." Because a third string catcher, of no use whatever to the Seals, was loaned to Mitze for two hours in an emergency which no one could foresee, a twilight sheet across the bay came out with a seven-column "scare head" informing its readers that "Ewing had come to the aid of his Oakland club."

Of all lame tommyrot this continued chin stuff about J. Cal Ewing still controlling the Oakland club is the worst.

It is a fact that Ewing is a San Franciscan and even broadly suggests that the local club is still "San Francisco's second team" do not know what they are prating about, and are at wits end solely by the same sentiment that prompts them to put Oakland last in the club standing, even though the team may be tied with two others.

Though perfectly satisfied in our own minds of the true state of affairs, and understanding pretty well how the deal was brought about, we went to Frank W. Leavenworth, the Oakland manager yesterday and put the following blunt question:

"Has Cal Ewing, the president of the San Francisco baseball club, or Frank M. Ish, his partner, any interest in the Oakland club; do they own any stock or control any stock, or are any shares of theirs held in the club? If so, then the club stands in an arrangement whereby Ewing or Ish might still be said to have a string on the Oakland club?"

To which Leavenworth replied as follows:

"PLEDGE YOU MY WORD AS A GENTLEMAN THAT I OWN AND CONTROL I HOLD SACRED AND HONORABLE THAT NEITHER MR. EWING OR MR. ISH OWN OR CONTROL A SINGLE SHARE OF STOCK, EITHER DIRECTLY OR INDIRECTLY, IN THIS CLUB. JOHN E. COOK IS OWN AND CONTROLLING INTEREST IN THE OAKLAND CLUB, AND THE BALANCE OF THE STOCK IS DISTRIBUTED AMONG THE STOCK HOLDERS, PRACTICALLY ALL OAKLANDERS."

BOOKS ARE EXAMINED.

Following this statement, President Leavenworth permitted the writer to examine the books of the Oakland "Seals" club, which simply substantiated everything that was said.

The writer is perfectly well aware that in the future it will be the custom to where the future of baseball was a matter of conjecture that J. Cal Ewing, the leading figure in baseball on the coast, and the man with the most at stake, came to the front and invested in Oakland baseball stock, principally with the idea of getting a franchise. This statement he held in his trustiness by Ed Walter, the former president of the Oakland ball club, and represented a majority of the shares.

Not until Harry Wolverton took hold of the management of the club did it begin to offer any substantial returns. The abolishment of racing at Emeryville helped the sport greatly, and the general prosperity and growth of the bay section made both the San Francisco and Oakland ball clubs desirable subjects for investment.

Meanwhile, of course, the fact that Ewing owned stock in two rival clubs leaked out and the cry of "syndicate baseball" began to be heard. Nothing will knock the sport quicker than a cry like that.

Ewing, however, was not alone. Also, he found his hands full with the San Francisco club's affairs, and wanted to concentrate his attention on the larger interest.

He expressed a willingness to sell, and even went so far as to seek a buyer. Offers were made to Ewing by certain interests in Oakland, but Ewing did not care to sell except to someone whom he was convinced would make a success, for a tail and club here would mean & falling off in attendance at not only that park but across the bay also;

which was the foundation of the subsequent deal.

Ewing could have sold his stock on the open market for a higher figure than he received from Leavenworth and Cook, but he probably wisely figured that these men would buy up his stock. When this transaction was opened, the first ultimatum delivered by the prospective buyers was that Ewing should have absolutely no further interest in the Oakland club, and this was the foundation of the subsequent deal.

The success, baseball has to be conducted cleanly and squarely. It is those qualities which has endeared the sport to the American public. Honest criticism is wholesome and should bring forth no protests. It is the business of the sporting press to safeguard the interests of the baseball public and to write fearlessly of facts as they exist.

It is certainly a breach of faith with the public and a violation of trust for a newspaper to persistently and without justification seek to damage, by false charges, a sport that is conducted squarely and openly, so entirely upon the support of the public.

The double header which the Oaks took from Venice yesterday pulled the champion from the cellar and into the running again, which only goes to show how closely the race is being contested. Portland and Los Angeles kept up their terms while Sacramento and San Francisco and Oakland lost ground slightly.

The Oaks never should have lost last week's series. They had a three-run lead Thursday, and a three-run lead Friday, and lost out because the pitchers failed and were not derricked in time. Saturday night the game was won, and the way was off. Manager Mitze had not evidently perceived the error of his ways and adopted a different policy. The Oaks might have lost yesterday afternoon. Pernoll started to weaken in the seventh, and was ranked fourth best. Mitze, however, took him off the side lines the moment he sent Majorley to the mound! That sort of policy in ball games and the hope is correctly expressed that it will be con-

tinued.

Remember that this column touted Ted Taylor pretty highly the first day we saw him work? Well, all he did yesterday afternoon was to come up twice, get two hits and cross the plate three times, and was beaten out of the race on his last at-bat.

We saw a fellow once who could run as fast as Taylor can. He was seen going down hill with a bear about three jumps behind.

If the San Francisco baseball sharpie who wrote above vents his baseball world turn their typewriters on us we would find something a little more tangible to occupy their minds and a real chance to the game.

"Melling Fitz" Donoghue, whose looks of modesty and temper led to his being loaned to Sacramento has a "post." Oh, yes, every body in 1912 was with the Chicago White Sox just long enough to get into their teams in one game. He's not the only good over there.

There's a whole world out there for the boys who now go to the office and don't know what you are up to.

McLOUGHLIN WINS THREE STRAIGHT SETS AND CHAMPIONSHIP

Great Crowd Sees Englishman Downed by Sensational Californian.

WIMBLEDON, England, July 28.—The United States lawn tennis team carried off the world's championship trophy today when

the match in the contest with England for the Davis Cup International cup.

McLoughlin, the American national champion, was drawn against Charles P. Dixon and won in straight sets, 8-6, 6-3, 6-2.

The first set was hard-fought, but Dixon was in the lead only once. As soon as McLaughlin got into his stride he had the engagement at his disposal.

Second and third sets were easy for the brilliant American, who was playing at the top of his game.

There was an immense crowd in the

stands to witness the exciting match between the players. These conditions suited the American competitor better than the weather prevailing during the preceding two days.

Fifth set—McLoughlin, 414 514 415 514 31—41 points, 6 games.

Second set—McLoughlin, 414 441 444—30 points, 6 games; Dixon, 140 624 212—25 points, 3 games.

Third set—McLoughlin, 444 427 14—30 points, 2 games; Dixon, 210 145 40—17 points, 2 games.

A little humor now and then is, etc. As we were about to remark, Mitze says the only team he now fears is the seals. That's right, laugh!

Those who have been heaping abuse on the head of "Rub" Marquardt, Giant pitcher and actor of vaudeville fame, are beginning to believe him. Rub, who is the best pitcher in the league, held St. Louis to 7 singles, which scored 1 tally. The Giants made 2 runs. Incidentally, this was Marquardt's ninth consecutive victory.

Popular Mr. Murphy, president of the Chicago Cubs, makes the announcement that he has purchased Pitcher Earl Moore, the former Phillie, who refused to report to that team.

Kid Mohler bungled one for two sacks and also made a sacrifice. It looks as if "Pop" Time will have to put on an extra burst of speed if he expects to nail the kid.

Johnny Wulf, ex-Seal, got 2, one going for 2 sacks.

"Pop" Arlett, also a former Seal, was on even terms with Stockton up to the ninth in that inning the Stocktonites round him for 3 hits, which counted for the same number of tallies.

With the win, the Seals are 10-10.

ST. LOUIS, July 22.—A monocle has shattered the dreams of Dr. Otto Gordon Goldfeld of Germany, of his father, vice-president of the corporation of Hamburg, and of a beautiful European chorus girl whose identity shall remain a secret until her hero's dream has been rebuilt and realized.

Dr. Goldfeld, a self-confessed lover, spendthrift and temporarily disinherited son, recently came to the United States with the intention of joining the army. He wanted to forget the pretty chorus girl, the bright lights of Monte Carlo and the memory of the \$32,000 he lavished on his fiance in one year.

Three years in the American army, Goldfeld, his father and the girl decided, would make a man of him. He would then return home, be rehired and would marry the girl. Goldfeld enlisted at Chicago last Tuesday.

In a recent investigation Hague discovered several young women and men who have been making a living posing as brides and bridegrooms at Polish wedding celebrations.

The fact that pseudo weddings or pseudo wedding receptions were a feature of life in the Polish quarter was brought to Hague's attention shortly after he took office a month ago and he discovered that the police were issuing from fifteen to twenty permits every night for dances in the back rooms of saloons. Each of the applications for a permit was based on the assertion that the dance was to be a wedding celebration.

BARS SLASHED SKIRT IN CHURCH
MERIDEN, Conn., July 23.—To dress for attendance at the house of God in clothes suggesting a bawdyhouse or a recreation pier is disgraceful and transparent waists, low-necked or short sleeved gowns will be refused by the commander at St. Rose's Catholic church," said the pastor, the Rev. James Conlin.

"I have no objection," continued Father Conlin, who has also denounced masquerades at which women wear male attire, "to women appearing in church in the coolest manner consistent with good taste."

"But when they appear here in decollete gowns, in things that are only apologies for sleeves, a wisp of cloth and a yard of nothing, I believe it is time for me as a minister of God to protest."

HEN LIVES ON SPARROWS

WILMINGTON, Del., July 23.—George E. M. Stangle of Seaford, Del., until recently a magistrate has a Plymouth Rock hen that subsists almost entirely on a diet of English sparrows.

When grain is scattered in the poultry yard this hen eats sparingly, keeping her eyes open for sparrows. When one gets close enough the hen makes a sudden dart and kills the bird with a single blow of her bill. She then devours all of the victim except the feathers and bones.

That the sparrow diet agrees with the hen is evidenced by the fact that she is much heavier than any other fowl in Stangle's flock. She is also a continuous layer.

GRANT DISAPPEARS

RENO, Nev., July 23.—Jesse Root Grant, whose presence in Goldfield for the most part of the last six months, unknown to any one excepting his attorney and two other intimate friends, and who filed divorce proceedings last Wednesday, has disappeared from the Southern Nevada camp as secretly as he came. Grant has shipped away into the hills of the Masonic mining district, over the state line in Mono county, California, about 100 miles west of here, where it is said he is looking over some properties. He will not discuss his case.

CURED TERRIBLE HUMOR ON FACE

COULD NOT GO ON STREET WITHOUT VEIL. TELL WHAT RESINOL DID FOR HER.

PHILADELPHIA, Pa.—In December, 1908, my face became sore. I tried everything that was recommended, and my face got worse instead of better. I spent over \$100 and got no benefit. The face and nose were very red and the eruptions had the appearance of small boils, which itched me terribly. I cannot tell how terrible my face looked—all I can say is, it was dreadful, and I suffered beyond description.

I have not gone on the street since time since I've got out of a vein until now. Four months ago a friend persuaded me to give Resinol a trial. I have

now more than a jar of Resinol Ointment, and my face is perfectly free from any eruption, and my skin is as clear and smooth as any child's. It is about four weeks since the last plastic disappearance.

ST. LOUIS, July 22.—A monocle has shattered the dreams of Dr. Otto Gordon Goldfeld of Germany, of his father, vice-president of the corporation of Hamburg, and of a beautiful European chorus girl whose identity shall remain a secret until her hero's dream has been rebuilt and realized.

Dr. Goldfeld, a self-confessed lover, spendthrift and temporarily disinherited son, recently came to the United States with the intention of joining the army. He wanted to forget the pretty chorus girl, the bright lights of Monte Carlo and the memory of the \$32,000 he lavished on his fiance in one year.
